NXT SCHOOL · COMPETITOR SNAPSHOT · NOVI SAD · OCTOBER 2026

Who else wants the same afternoon

Everyone sells **coding** and **„veštine budućnosti“**. Nobody sells **confidence, AI as a way of thinking and English without fear**. That's our lane.

COMPETITOR	RSD / MONTH	WHAT THEY SELL	WHAT IT MEANS FOR US
Logiscool 1–8. razred · closest rival	**~7.000**	Coding + AI + online safety	Same kids, same AI story. We're 1.100 cheaper and not a coding school.
Dexter's IT Laboratorija	**5.300**	Coding "od dece do inženjera" · groups of 4–8 · free trial · 4.9★	They own small groups and reviews. Don't fight there yet.
Kliker Centar Cara Dušana 34 · our street	**n/a**	Coding + "Uvod u AI" for 3–4. razred	Parents will compare us directly.
DIC	**~10–12k**	STEAM and robotics through play	Premium. We're cheaper and broader.
English schools Akademija Oxford, Helen Doron…	**from 3.890**	Language lessons, twice a week	The "already does English" objection. We're not a language school.
Robotix · Digi Klinci · ITfusion	**3.500–6.500**	Cheap coding and robotics	The "isn't it just coding?" comparison.

Where our price sits

Everyone says it, so we don't lead with it

~~veštine budućnosti~~ ~~programiranje~~ ~~male grupe~~ ~~portfolio~~

Parents don't talk like this. They say „da ne gleda u telefon“ and „rezultati“.

Nobody owns it, so we do

1. **Speaking and presenting with confidence**
   No program in Novi Sad teaches it to osnovci.
2. **AI as thinking, not a tech topic**
   Pitaj → proveri → poboljšaj → ti odluči.
3. **English without fear**
   Used in projects, not graded.

We're new, with no reviews and no students. What replaces proof:

Open Day · 26. 10.

Try before paying. Competitors give a free trial class; this is ours.

Founding price

5.900 instead of 7.200 for the first generation. A reason to join now.

Show, don't claim

The space, the mentors' faces, what kids make in one class.

Client decision: a sibling discount? Most competitors give 15–30% off for a second child.
